

EVERYONE HAS A STORY TO TELL - WHAT'S YOURS?

Do you want to share a little of your personal history with family and future generations or to tell them something special about yourself? Maybe your life as a child or how you spent your holidays, the games you played, special places you remember or even what your family home was like. What was in your bedroom, did you share it with siblings, or did you have a special toy or doll that you loved. Maybe you had a pet that made your life much happier.

Have you ever made a difference? Would you like to share your thoughts and life's experiences or family stories with your family for future generations?

Or have you wonderful childhood experiences you would like to share

Brought up amazing children

Had a wonderful relationship with someone special

Met Royalty or somebody famous

Lived or visited a war torn area or country

Travelled to unusual places

Invented something to help others

Had a 'Great Escape' or a 'Wonderful Adventure'

Or anything else that you may want to write about

There are thousands of things you may want to have written down to share with others. Maybe you would like to thank someone, or maybe just a little secret for yourself to keep.

I could help you with this as I need to make my mark in life as well.
